- Should be Model
- Root cause analysis: Fishbone
- Red flags
- Remedies to the Red Flags
- To be
- Benefit Analysis
- Lessons Learned
- Sponsor feedback
- Conclusion

Why Chose IPOS?

Alternative Ideas:

- Corporate conference rooms booking
- Starbucks Drive thru

Ultimately choose the iPOS due to:

- Entire team is familiar with process
- Process was cumbersome
- Convenient sponsor

Business Process

The iPOS includes

- Degree audit for the student's plan of study
- Student's advisor
- Petitions
- ASU Design aspirations
- Professional Development
- Student's Committees

The iPOS holds a myriad of data from all graduate and Doctorate students across ASU

 FAQ	5

Purpose

- Improve efficiency
- Automate tasks using AI
- Predict course enrollment levels
- Assess course difficulty based on past performance
- Estimate financial aid eligibility
- Optimize resource allocation

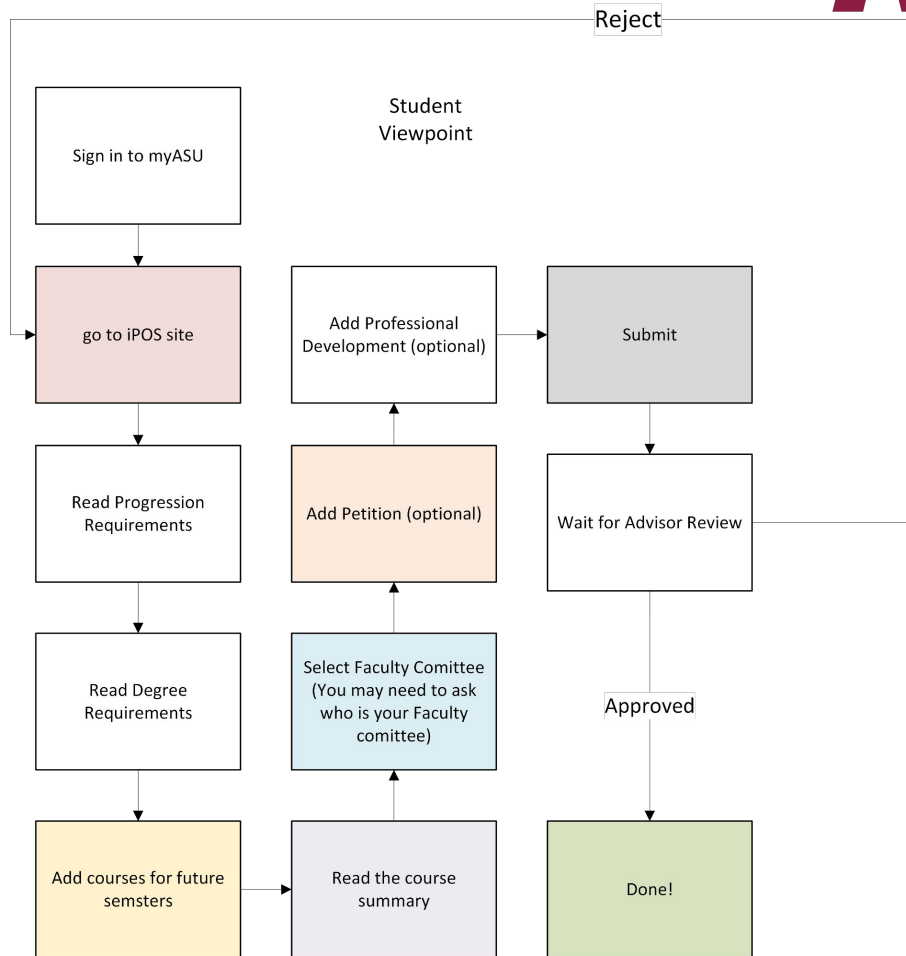

Context

- Key platform for managing graduate student progress
- Serves students, advisors, & professors
- Current system is time-consuming & inefficient
- AI can automate tasks, speed up processing, & provide smart insights
- Make iPOS faster, smarter, & supportive for all users

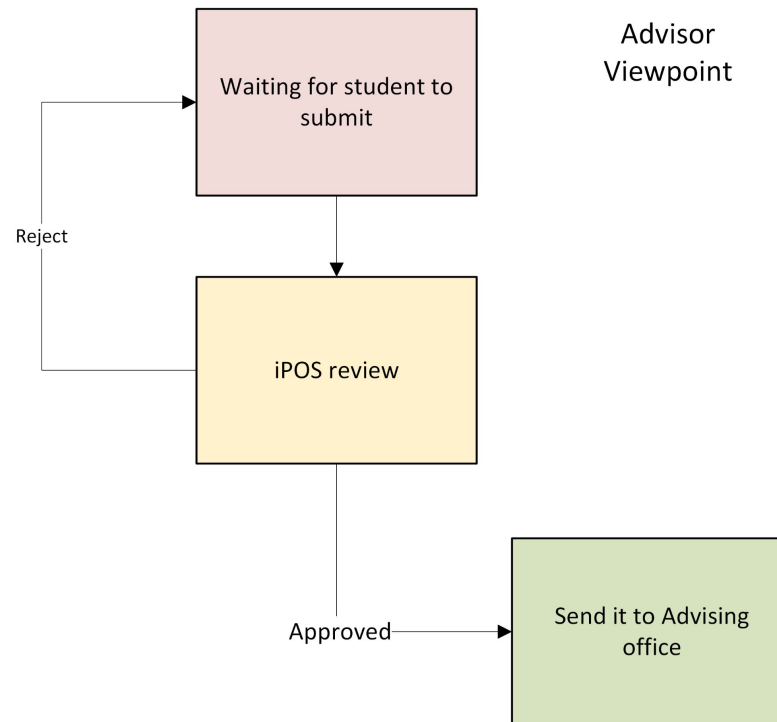

Student viewpoint

- Time-consuming
- Unclear
- Effort
- Error prone

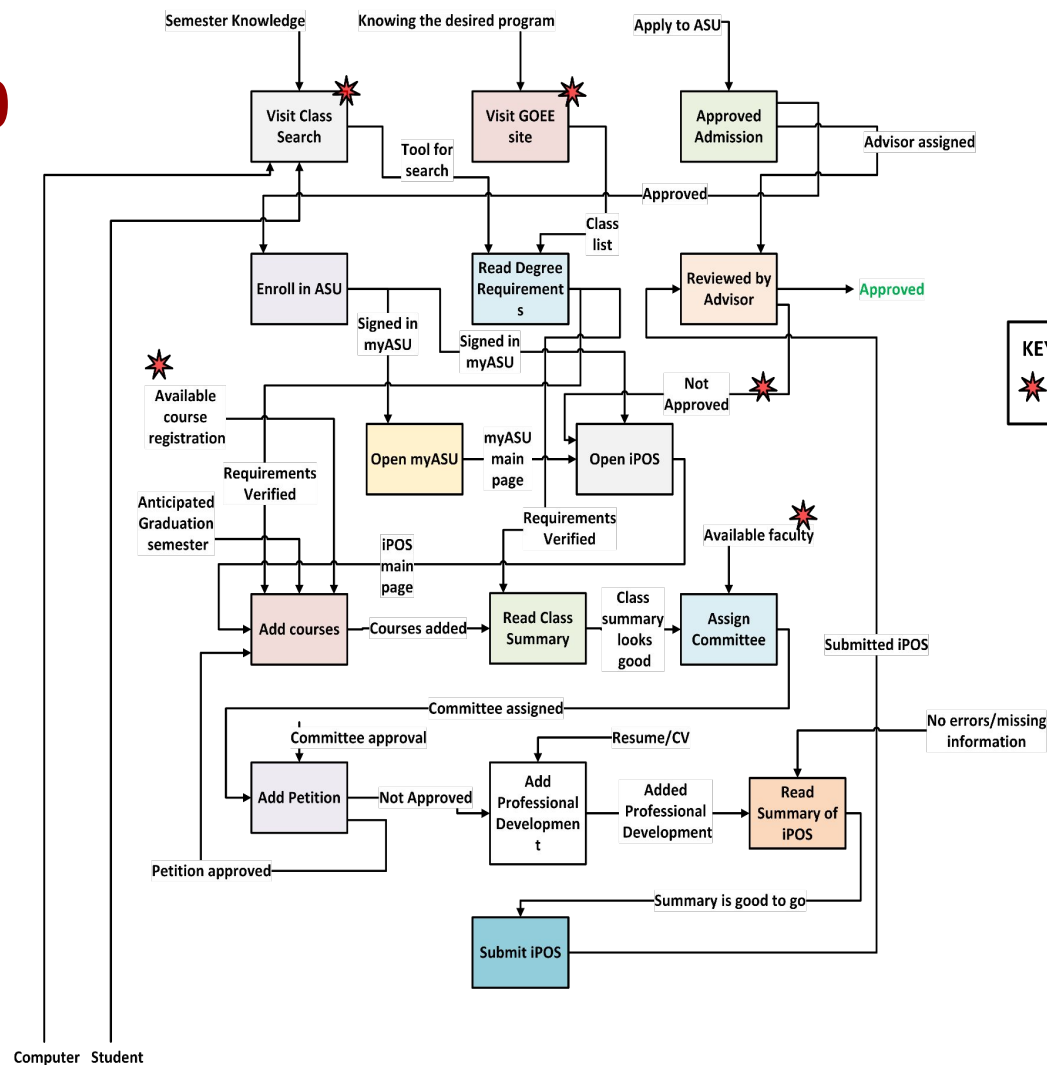

Academic advisor viewpoint

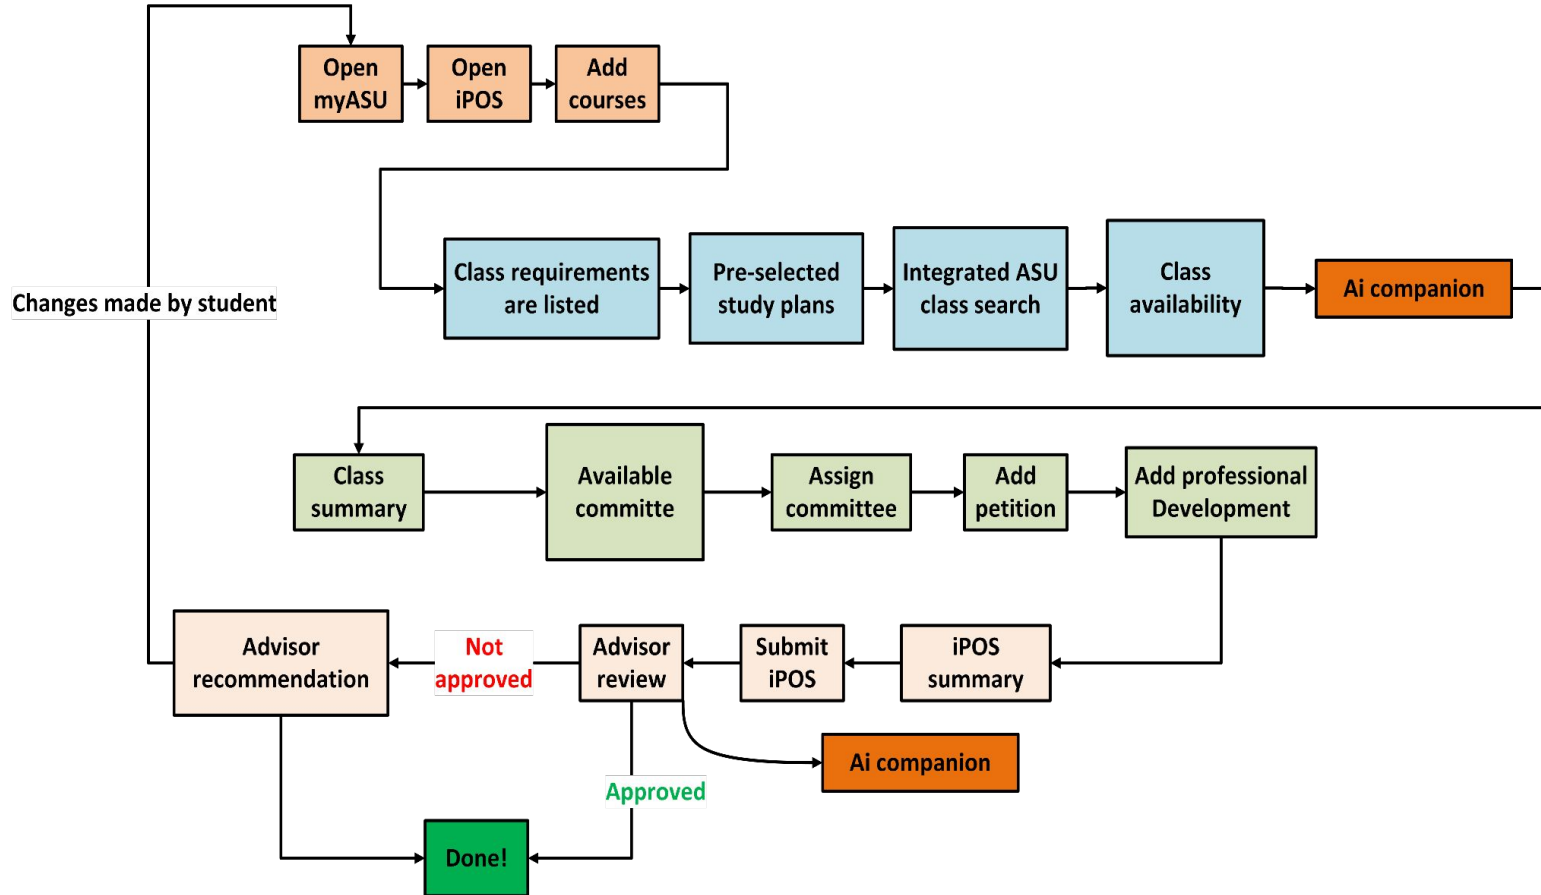

- Wait time based on the student submission
- Backlog of students

As Is: IDEF0

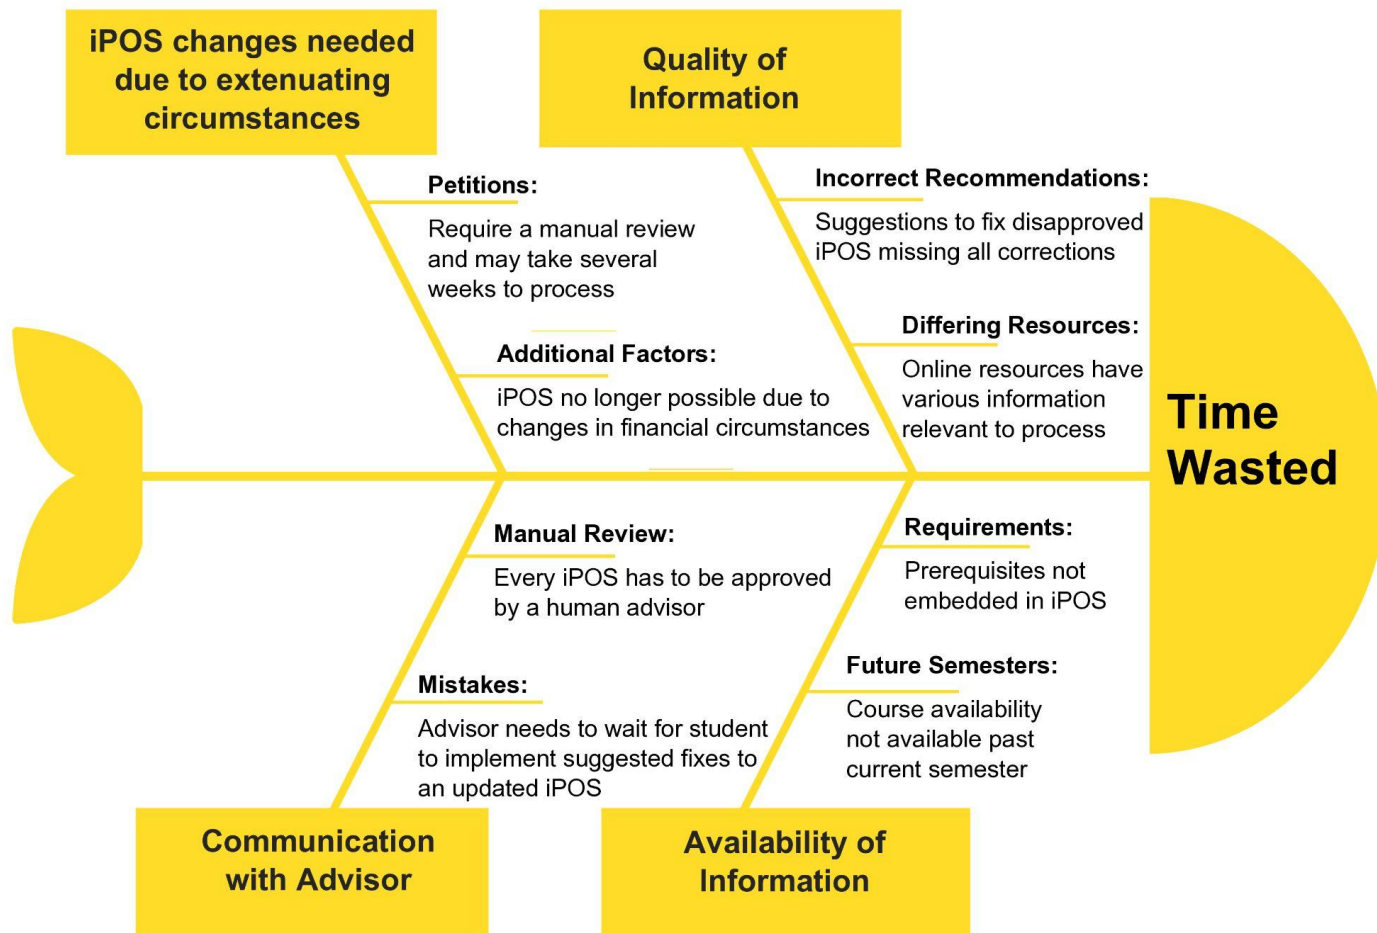

Should Be Model

Fish Bone

Root Cause Analysis

Red Flags

- Visit the GOEE Webpage to access the degree requirements.
- Visit the Class Search page to understand the classes available to enroll in.
- Not Approved by the advisor with no follow up to how to improve or recommendations on what to take instead.
- Available semester course registration is not provided to students.
- Available Faculty for the student committee is not expressly given, there is not a list students can choose from.

Remedies to Red Flags

- Under “Degree Requirements” tab, add in the course requirements for the core class needed for the program chosen in the drop down menu
 - And when they are usually offered – this is not a guaranteed promise
- Integrate the ASU class search tool into iPOS
- Add a template plan of study – as an example/ gives a specialty map
- AI added to recommend classes if iPOS rejected

To Be

Goal → Transform iPOS into an AI powered system

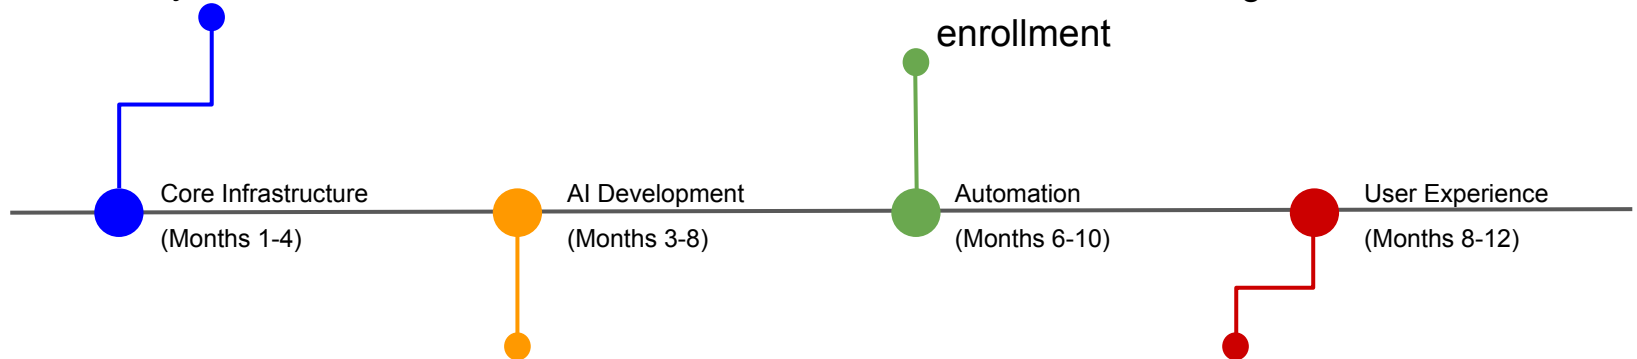

Benefits → Eliminate inefficiencies, enhance user experience

Methods → AI, ML, & automation

Transformation Timeline

- API integrations, real time course data
- Centralized dashboard
- Key deliverables listed

- Course recommendation engine
- NLP for feedback
- Intelligent validation & templates

- Auto approvals & smart routing
- Reminders & advisor tools
- Predictive modeling for enrollment

- AI chatbot & personalized dashboards
- Mobile design & advanced tracking tools

Cost-Benefit Analysis

Total Cost: \$121,013

Annual Benefit: \$70,000

Payback Period: 1.73 years

3-Year ROI: 73.5%

Results

- Strategic & cost effective solution
- Improved efficiency
- Enhanced user experience

Course Content and Global Team Lessons Learned

Course Content Lessons Learned:

- IDEF model is needed since red flags cannot be found superficially
- A “To Be” is as important if not more important than the “Should Be”

Global Team Lessons Learned:

- Balancing individual availability and delivering quality work
- Clear communication needs to be used to express expectations, interpretations, and opinions

Sponsor Feedback

Short-Term Priorities:

- Standardized template within iPOS
- More detailed explanations for subpages
- Review of core course requirement setups

Medium-Term Goals:

- Implementing auto approvals
- Rules based workflow system
- Improving visibility into course availability

Long-Term Enhancements:

- AI-assisted course registration
- AI chatbot

Conclusion/Summary

- We evaluated how AI could improve timely processes in ASU's iPOS workflow.
- Key bottlenecks in the current process:
 - Lengthy manual approvals.
 - Inconsistent course-setup checks.
 - Lack of timely communication.
- Cost Benefit Analysis:
 - Initial cost to implement AI could be offset within 12–18 months.
 - Reduced advisor hours and faster student progress.

A photograph of an ASU Charter stone in the foreground, with a modern building and palm trees in the background. The sun is low on the horizon, creating a warm glow. The text "Thank you!" is overlaid in the center.

Thank you!

ASU Charter

ASU is a comprehensive **public research university**, measured not by
its **rankings**, but by **whom it includes** and how they **succeed**;
its **research and discovery** of public value;
its **fundamental responsibility**
for the economic, social, cultural and overall
health of the communities it serves.
